## **Donor Profile Report**

The Donor Profile Report can be created for a specific donor or a group of donors using a Quality or Membership value.

It is a supportive report which is useful when speaking with a donor or attending a donor meeting.

When profile data and other features in @EASE are well-populated, this report is very beneficial to development officers and management staff.

## Don't forget to add a Title!

There is a **NEW FEATURE** found on Versions 2020.05+. This feature enables staff to create profiles for donors or donor groups using Quality or Memberships, where only those who have given donations in a given date range will be included.

Please note Donor History is checked and a From and To date is given. The Only Print Profiles which have Dollars is checked!

This provides a more focused report!
